EDUCATION

TECHNOLOGICAL UNIVERSITY OF THE PHILIPPINES – MANILA Manila City
BET - Computer Engineering Technology 2023
STI ACADEMIC CENTER Caloocan City
ICT - Mobile App and Web Development 2019

WORK EXPERIENCE

XUREDEAL PTE. LTD. (Startup) San Juan City, Metro Manila
Lead Software Developer May 2025 – Present

- Led and mentored a cross-functional team of junior developers and interns; established standardized code review processes and streamlined PR management to guarantee high code quality and on-time feature delivery.
- Proposed and spearheaded the adoption of Zustand and TanStack Query, significantly optimizing data-fetching efficiency, eliminating legacy code complexities, and accelerating application performance.
- Managed the end-to-end deployment and release lifecycle for mobile applications on both the Apple App Store and Google Play Store, ensuring compliance with platform guidelines and seamless version rollouts.
- Oversaw the successful deployment and configuration of web applications onto company servers, ensuring optimal server uptime, security, and reliable production environments.
- Partnered with product managers to define architectural roadmaps for scalable features while providing high-priority technical support for high-profile endorsers to ensure marketing campaign success.

SELF-EMPLOYED Caloocan City, Metro Manila
Independent Full-Stack Developer (Project-Based) 2024 – Present

- Custom Web Applications: Contracted on an ad-hoc basis by corporate leadership to architect and deliver specialized web applications, handling the full development lifecycle from initial requirements gathering to deployment.
- Non-Profit Web Development: Voluntarily designing and building a responsive web platform for a local community organization to streamline outreach and digital presence, managing infrastructure and ensuring optimal performance.

XUREDEAL PTE. LTD. (Startup) San Juan City, Metro Manila
Software Developer Aug 2023 – May 2025

- Spearheaded the backend transition from AWS Amplify to a Serverless architecture utilizing Lambda APIs, significantly increasing application scalability and reducing operational overhead.
- Designed and implemented a scalable email notification system using a third-party provider, automating critical app events such as authentication and marketplace purchase confirmations.
- Engineered seamless data integration by developing and implementing API connection logic between the frontend interface (based on design team output) and the core application database.
- Following a team reorganization, quickly adapted full-stack competencies (including SQL and .NET) before specializing in frontend development and complex API integration to optimize team productivity.

XUREDEAL PTE. LTD. (Startup) San Juan City, Metro Manila
Full Stack Developer Intern Apr 2023 – Jul 2023

- Developed and presented a fully functional CRUD application using React Native within the first two weeks, demonstrating rapid proficiency and securing a direct placement on the production team.
- Integrated the mobile application with AWS Amplify, successfully establishing the initial cloud backend and configuring data synchronization protocols to support real-time application services.

ADDITIONAL

Technical Skills: Proficient in JavaScript, React, React Native, Zustand, Tanstack, REST APIs, Tailwind, HTML/CSS; Familiar with Firebase, AWS, Supabase, NodeJS, NextJS
Certifications: STI Academic Center **-** ICT Computer Programming NCIII - Java and .Net Technology, Meta (Coursera) - Advance React · Languages: English (fluent), Filipino (native)
